

There are four ways to submit a help desk ticket to the MiData Hub:

1. Email your MiData Hub request to: support@midatahub.org
2. Email your MiLearn request to: mdesupport@midatahub.org
3. If you have a Web Help Desk (WHD) account you may log in here: <https://support.midatahub.org/> and submit a ticket.
4. You may also call (269) 250-9240 and leave a voice mail. Your voice mail will be generated into a WHD ticket.

If you email directly to WHD you will receive a copy. All communication can be done by replying to the email and it will go directly into your WHD ticket.

If you would like a WHD account, please email a request in to: support@midatahub.org but one is not needed to submit a ticket.
